

ADMIN-SR

ICS No. 6392-88
11 October 1988

MEMORANDUM FOR: Chief, Network Services Group
Office of Information Technology

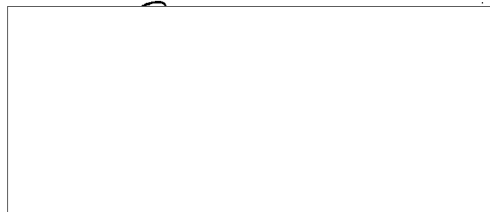

FROM: [Redacted]
Chief, Administrative Staff
Intelligence Community Staff

SUBJECT: STU-III Installation

1. The Intelligence Community Staff appreciates the work by your group in the recent installation of STU III's in the Community Headquarters Building. We realize we were one of the first to get these units and that procurement and installation guidelines were few. So the fact that we are up and running is a credit to your people.

2. Having used the STU-III just this short while, we have decided that the five line units, at least in our director's office, will give us closer to the service we need. We therefore request that when these units become available, you obtain three and install them in place of those we have. Our two remaining single line units will serve as is.

3. Please contact our Logistics Officer, [Redacted] to coordinate the installation.

SUBJECT: STU III
